HOW DOES OUR MATCHMAKING SERVICE WORK?

STEP 1: AN EXTENSIVE INTAKE

We'll begin your matchmaking adventure with a comprehensive intake.

You'll receive an intake form to fill out at your leisure. Once you've completed the form, we'll schedule a personal meeting. This is the perfect opportunity to tell me all about who you are, what you're looking for, and what your interests are. Together, we'll explore your needs, preferences, and what would be an ideal match for you. I want to get to know you really well, so we can create a profile that's a perfect fit and use it to find that special someone!

STEP 2: CREATING A PROFESSIONAL DATING PROFILE

After our conversation, I'll get to work creating a professional profile for you. We'll ensure your profile has the right tone and look, so you can show your best side. You'll also receive professional photos to visually enhance your profile and ensure you're presented optimally to potential matches.

This way, we ensure your profile is a perfect fit and makes the right impression!

STEP 3: PUBLISH YOUR PROFILE

Once your profile is ready, I'll actively promote it within my network and through my platforms. Your profile will be brought to the attention of potential matches who align well with your needs and expectations.

HOW DOES OUR MATCHMAKING SERVICE WORK?

STEP 4: INTERVIEWING POTENTIAL MATCHES

I want to meet every potential match first, either in the office or online, so I can truly engage in conversation. This way, I ensure they align with your preferences and needs. It not only helps me find the right matches for you, but also helps me see if there's a good connection!

STEP 5: ARRANGING YOUR FIRST DATE

I'll introduce you to your matches and arrange a date and location for your first date. The goal is to create a romantic, relaxed, and fun atmosphere so you can get to know each other naturally and feel comfortable.

STEP 6: EVALUATING THE DATE

How exciting! The first date is over! After the date, I'll contact you to hear how it went. What went well? What would you do differently next time? Or did you click instantly? Your feedback will help me fine-tune your future matches even better.
